

PC Configurations for PYTHA V22

In the following you will find the recommended PC configurations which are ideally suited for PYTHA. You will profit by a higher performance if you use more RAM, a bigger hard disk and graphics card of high capacity as well as a faster processor.

Components which do not have any influence on PYTHA are not listed. As far as this is concerned you are free to configure the system according to your needs. Should there be any further questions please do not hesitate to contact your supplier.

The supported operating systems are Windows 7, Windows 7 64 Bit, Windows 8.1 and Windows 8.1 64 Bit.

The graphics card must support OpenGL 2.1 and DirectX 9.0 and have a capacity of 512 MB.

PYTHA is licensed via a USB or network dongle.

Please note that a scalable PC will also be ideally equipped for the future if it allows high flexibility and expandability.

Regular configuration

Processor	: Intel® Core™ i7-4790
RAM	: 8 GB RAM
Hard disc	: 1 TB SATA
Graphics card	: NVIDIA® GeForce® GTX 750Ti 2GB DDR5
Screen	: min. 1920 x 1200 Pixel
